OVN is the Smart Contract and IoT driven utility token of OpenView Network and powers what will be the world's largest decentralized digital content advertising network.

OVN represents a major shift in commercial interactions between businesses and their customers. It combines intention, engagement, and content distribution to provide an objective measure of advertising efficiency.

-----NODE Offering For Stage 1 Participants-----

Individuals or entities that purchase 150,000 OVN tokens (\$16,500) during the presale are eligible to supervise 100 special screens that are connected to loop players and receive 2.5% of the minted tokens from the 100 screens each month in perpetuity.

The value proposition for owning One or more Nodes during the presale.

- 400 Nodes are available to the iHub global and OpenView community accounting for the first 40,000 screens.
- Only available during presale to individuals or entities with the added benefit of accumulating tokens at the earliest prices of the OVN token. Any unsold Node positions will be assumed by the OpenView team.
- Individuals or entities receive a 1% bonus (1500 OVN tokens) from the DART exchange.
- Nodes receive early access to the OpenVerse Metaverse.

Node Behavior Rules

- Must have a minimum of 150,000 OVN tokens in your OVN account 1 month to the last day to receive minted tokens from the 100 screens each month.
- Any OVN tokens received by a Node before OVN is listed on a major exchange may be used to purchase OVN token on a major cryptocurrency exchange (a "Major Exchange"). A Major Exchange is defined as a cryptocurrency exchange with a minimum of \$1 billion in daily trading volume and is further capped at a maximum of 10% of the total OVN supply.
- After the 3 months following the listing of the OVN token on a major exchange, there will be no restrictions for liquidating any tokens.
